

Becoming a Supported Venue

About

CRWD SRFR is free, informational website that aggregates show and event information from popular venues across the Greater Cleveland area. We use a variety of methods to gather this information, including website fetches/crawls, image extraction, and manual entry.

Though we are fairly flexible in our support of how venue’s list their events, the reality is some methods make it overly difficult or impossible to support. If your venue is not currently represented on the site, it may be due to a number of reasons that made collecting your information not feasible.

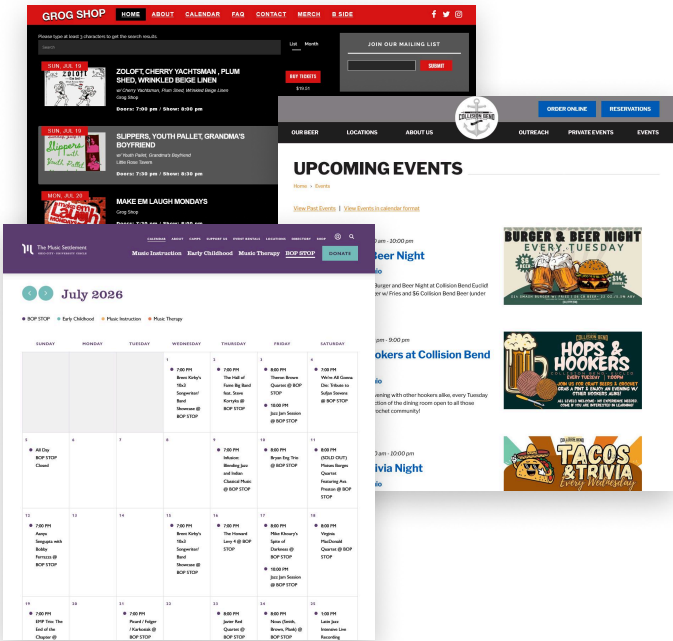

How to Become Supported

Below are the preferred methods you can use to either display or share your event listings with us:

1. Webpage Fetch

If you have a webpage you currently keep up to date with your upcoming events, we can pull all of your event information automatically each week. This is the easiest method provided the following:

- Your site does not block automated scripts from reading it’s content
- Your site’s events are not generated by a private or otherwise inaccessible API
- Your site’s events are structured in a way that can be read by an automated script

2. Event Calendar Images

If you are able to create a calendar image of your upcoming events, we can take that image and extract the events to our website.

Due to limitations with images, event and ticket URLs must be provided separately.

3. Event List Spreadsheet

If you don’t have either of the above options, or just prefer something simpler, we can provide a custom spreadsheet to fill out and update at your own convenience.

How to Remove Your Venue from CRWD SRFR

If for any reason you would like your venue and/or event information removed from CRWD SRFR, please contact us and we will honor any requests as soon as possible.

The Fine Print

Providing your event information does not guarantee it’s listing on CRWD SRFR, and we reserve the right to reject listing any venue’s information on our website.

Questions? Ready to work together?
